We have now finished monitoring your dentition through the retention period and we are now discharging you from our care. This does not mean we will not see you anymore if you have problems or require a new retainer the door is always open. It does, however, mean that the

NHS deem treatment as complete and if any further treatment is required there will be a private charge.

If you lose or break your retainer the charge for a replacement is £100 (2019)

Bonded retainer repair charge is £50 and replacement bonded retainer will be £100 (2019).

For further information and to arrange an appointment please contact Reception.

To prevent tooth movement we recommend you wear your removable retainers at night indefinitely. If you have a bonded retainer and it becomes loose you will need to wear the removable retainer full-time until you can get it repaired.

Leave feedback and like us on facebook.
